

AGRETO Grainmoisture Tester GFM

Applications:

- Agricultural Enterprises
- Combine Harvesting Contractors
- Ideal for use on machines

Technical details:

- The GFM is the most sold moisture tester world-wide
- 80ml sample size
- measuring curves for 42 cultures
- Measures the whole grain - no milling necessary
- Automatic temperature correction
- 5mm Backlight LCD Display
- Measuring curves can be simply re-calibrated
- 9V Batteries supply the tester with energy for a whole season
- Comes with durable nylon carrying bag
- Rugged casing for mobile employment
- Measuring range of 5%-40% with grains
- and up to 40% with corn
- Accuracy $\pm 0,5\%$
- Warranty 1 year
- Weight: 0,72 kg

Benefits:

- quick and reliable examination
- of the harvestability and shelf-life of grain
- operates easily through
- whole-grain measurement
- durable and handy grain moisture tester with high accuracy
- self-calibration possible

Cultures:

Alfalfa	Phleum
Barley	Popcorn white
Beet	Popcorn yellow
